

Barley WG

Jan T. Svensson

79 Working Group Members

42 countries

Phase IX; two activities: 19 members (funded) representing 15 countries

24% have participated in an activity

Activities Phase IX

First call: Identification and updating of C&E data in EBDB of AEGIS Hordeum (HordEva)

Coordinator: Jan T. Svensson

Funded partners: Bulgaria, Finland, France, Germany, Latvia, Lithuania, Poland, Romania, Slovakia, Sweden

Second call: Integration of barley characterization and evaluation data into EURISCO, and development of specifications for a barley crop portal, with a focus to improve the AEGIS collection

Coordinator: Jan T. Svensson

Funded partners: Austria, Denmark, Estonia, Finland, Germany, Italy, Poland, Spain, Sweden, United Kingdom

Third call: no activity

Fourth call: no activity (email to probe interest 1 of 79 replied)

2% AEGIS

European collection (1697)

9 countries have registered AEGIS accessions
7 from ECPGR WG activities

Activity 1st call; 9 countries (6 registered)
1 not signed MoU
1 at NC
1 unknown reason

Characterization and evaluation data EURISCO 35 experiments from two countries

Ongoing activity 2nd call:
7 countries, 1 has registered data (UK)

The negatives

Unsure of long term commitment to funding

Cost and need of regeneration

Lack of germination tests

Delay at NC

Time

C&E data input threshold

The positives

24% of WG members have participated

78 % of countries with registered AEGIS participated

Suggestions

Joint WG meetings (communication between chairs)

EURISCO C&E data with doi

C&E data exchange EURISCO - GBIF

Strengthen link to pre-breeders/breeders

WG members list collection responsible

Thanks!
