

## **RECOMMENDATIONS FOR PHASE VII OF ECP/GR – ADDITIONAL CONTRIBUTION FROM GERMANY**

### **Recommendation 23**

- The Steering Committee is recommended to establish model projects on high priority issues to be financed as part of the Phase VII budget.
- A first model project should focus on the sharing of responsibilities as a possible model of a European genebank system. (A concept note could be provided by Germany and the ECP/GR Secretariat)

### **Recommendation 24:**

The Steering Committee is recommended to analyse the relationship between the ECP/GR networks and the supporting components (i.e. networks and Global Information System) of the International Treaty and undertake the necessary steps arising from such review.

### **Recommendation 25:**

A workshop is recommended to assess opportunities arising from and impacts of modern technologies such as biotechnologies (molecular markers, genomics, etc) and bioinformatics for conservation and utilization of genetic resources
