

## Appendix I. Workplan

Activities	Responsibility	Deadline
<b>Crop-specific interest groups</b>		
Identify the coordinators of the <i>Cicer</i> , <i>Lathyrus</i> , Soybean and <i>Vigna</i> interest groups	Chair, with support of ECPGR Secretariat	By end 2013
<b>AEGIS: selection of MAAs</b>		
Start the process with cultivars, since they have names and are therefore easier to distinguish as unique. Carry out a preliminary analysis, and then contact all the identified maintainers with a proposal to include the given accession in the European Collection.  <i>Phaseolus</i> and <i>Vigna</i> <i>Lupinus</i> <i>Pisum</i> <i>Vicia faba</i>	W. Kainz W. Świącicki M. Ambrose G. Duc	End of summer 2013 End of summer 2013 End of 2013 (Time schedule to be reviewed before the end of 2013)
Check whether it is possible to analyse the <i>Lens</i> database.	E. Tuğay Karagül	End of 2013
Help formulate a letter for contacting the partners, when requested.	ECPGR Secretariat	(Upon request)
<b>AEGIS Quality System (AQUAS)</b>		
Circulate members' experiences about regeneration standards compiled in the paper by Suso et al. (2011), propose a suggested standard for endorsement by the WG	M. Ambrose	End November 2013
<b>Databases</b>		
Provide the Chair with a short report indicating the points of difference between EURISCO and their respective databases. The information will be used for deciding on suggestions to be made to the Documentation and Information Network about the continued relevance of the CCDBs and their relationship with EURISCO	Grain Legume Database Managers	Before end 2013
<b>Thematic interest groups</b>		
Translate the underlying concepts of each theme into practical actions, which will be implemented through project proposals and/or proposed activities to be funded through the new ECPGR operational framework  (For Thematic Group 2)	Leaders of the thematic interest groups, upon prompt from WG Chair	At the onset of ECPGR Phase IX
Send an email requesting details on the availability of each country for screening, which crops, under which conditions, as well as which crops each country can send to others for testing.	Chair	End of 2013
Look into the features that need to be included on the Grain Legumes WG website.	M. Ambrose and G. Duc	End November 2013
