

**LITHUANIAN
RESEARCH CENTRE
FOR AGRICULTURE
AND FORESTRY**

LITHUANIAN RESEARCH CENTRE FOR AGRICULTURE AND FORESTRY

FOR SCIENCE, BUSINESS AND SOCIETY

Structure

- Institute of Agriculture and regional branches
- Institute of Horticulture
- Institute of Forestry

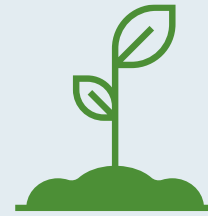

Main priorities

- Development of high-level research
- Enhancement of internationalisation
- Further development of doctoral studies
- Co-operation between science and business
- Community mobilisation
- Expansion of services to the public

Research directions

Biopotential of plants

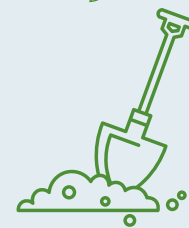

Sustainable forestry

Plant protection

Smart horticulture

Soil quality and productivity

Genetics and plant breeding

Projects

Possibilities to collaborate

- Research projects
- Internships
- PhD studies
- New products and services
- Dissemination of science results (96 percent of publications were published in Q1 and Q2 quartile journals, 2024)

Cultivars

- 13 new cultivars in 2023
- 9 in 2024
- 149 varieties are currently included in the Lithuanian National List of Plant Varieties and the EU Common Catalogue of Varieties of Agricultural Plant Species

446

Personnel

Researchers accounted for 38%, specialists and other employees 29%, laboratory assistants and technicians 23%, and administration 10%

67 PhD
students

22 foreign
students

18
dissertations
defended in
2024

PhD studies

Agronomy, Forestry, Ecology and Environmental, Biochemistry

Projects

- 58 international projects
- 76 national projects
- More than 95 contracts with business entities

Main research organizations

Science and business collaboration
